

HANNA MAUER SIBLEY, HEAD OF PRE-SALES NETWORKS AND MANAGED SERVICES

Hanna Mauer Sibley is Head of Pre-Sales, Networks and Managed Services in the Customer Unit Northern and Central Europe within Market Area Europe and Latin America at Ericsson.

Together with her team extending to 17 countries, Mauer Sibley is engaged in the mission to enable the full value of connectivity, 5G and Internet of Things (IoT) for Ericsson's customers. This builds on her broad experience and expertise from the telecommunications and ICT industry.

During her career at Ericsson, Hanna Mauer Sibley has contributed to creation of the industry-leading mobile broadband solution portfolio. She first started at Ericsson in 1993 and has served in various positions across the US and Europe. Prior to taking up her current position, she headed Network Product Unit responsible for pre-sales and solution design for Business Unit Networks products in the region Western and Central Europe. At Business Unit Radio, she held a position of Head of Mobile Broadband and Technical Sales Support. Earlier, in the Business Unit Networks her positions included Head of Mobile Broadband in Product Area Radio as well as various Product and System Manager roles responsible for mobile broadband products.

Hanna Mauer Sibley holds a Master of Science in Engineering, Engineering Physics from the Royal Institute of Technology (KTH), Stockholm. She resides in Stockholm, Sweden with her family.
